

Interoffice Memo

TO: Board of Supervisors
FROM: Nancy
SUBJECT: Michael Sunday Property
DATE: August 30, 2005

I received a call from Sheryl Martin of DEP on this date. She informed me that DEP does not notify municipalities when this type of operation occurs. The only time notification would be given is if someone would be processing the ash the same as American Ash Recycling.

The only way the Township could control this type of activity is to have a local ordinance in place and then it would be between the Township and the property owner.

Should you have any questions, Ms. Martin can be reached at 771-4481 (York District Office)
